GSM 900MHz Cell Phone Signal Repeater IP65 Casing Level For Exhibition Centers  
2019/07/30

Product Name: Cell Phone Signal Repeater Working Frequency: Customizable Noise Figure:  $\leq 5\text{dB}$  Power Consumption:  $\leq 200\text{W}$  Casing Level: IP65 Dimensions:

630\*400\*230mm Weight:  $\leq 40\text{kgs}$  Control Connector: USB Port For Local / Remote GSM900MHz , Ics Repeater / Mobile Signal Amplifier , Cell Phone Signal Repeater

Model: VR-4095-G Product Instructions: The ICS Repeater is working as a relay between BTS and mobile phones. It receives low-power signals from BTS via Donor Antennas, linearly amplifies the signals and then retransmits them via Coverage Antennas to the weak/blind coverage area. And mobile signals are also amplified and retransmitted to BTS via the opposite direction. The Repeater is designed to provide a more cost-effective solution than adding a new Base Transceiver Station (BTS) to improve signal coverage and communication quality. Its easy installation and maintenance can help carrier get fast return. Product

Features: Aluminum-alloy casing with IP65 protection has high resistance to dust, water and corroding. Real Time interference signal cancellation (Multi-path Fading, Feed-Back signal) greatly reduces system isolation requirement. No interference to BTS by adopting linear amplifier with high gain and low noise. Adopting filter with highly selectivity and low insertion loss eliminates interference between uplink and downlink. RS-232 port provides a link to a notebook for local supervision or to the built-in wireless modem to communicate with the NMS (Network Management System) that can remotely supervise repeater's working status and download operational parameters to the repeater. Applications: To expand signal coverage or fill signal blind area where mobile signal is weak or unavailable. Outdoor: Airports, tourism regions, golf courses, tunnels, factories, mining districts, villages, Indoor: Hotels, exhibition centers, basements, shopping malls, offices, parking lots, etc.
